Service 01 – Custom AI Agent Solutions

1. Service Overview

Custom AI Agent Solutions is BePrompter's flagship AI offering. We design, develop, deploy, and maintain intelligent AI agents that automate business operations, answer customer queries, access company knowledge, integrate with business software, and perform real-world business tasks.

Unlike traditional chatbots, our AI Agents can reason, retrieve information, use external tools, execute workflows, and integrate with CRMs, ERPs, WhatsApp, websites, and other business systems.

2. Ideal Customers

- Startups
- SMEs
- Manufacturing Companies
- Real Estate Agencies
- Hospitals & Clinics
- Educational Institutions
- Logistics Companies

6. Delivery Timeline

Package	Delivery Time
Lite	2–3 Weeks
Pro	4–6 Weeks
Enterprise	6–12 Weeks

7. Market Pricing Analysis (2026)

India The current Indian market shows a broad pricing range depending on complexity:

- Simple AI chatbot: ₹20,000–₹80,000
- Business AI chatbot with integrations: ₹1,00,000–₹4,00,000
- Production AI Agent: ₹1,50,000–₹4,00,000+
- Enterprise multi-agent systems: ₹3,00,000–₹8,00,000+ (Scallar IT Solution)

International Typical starting prices:

- USA: USD 2,000–10,000+
- UK: GBP 2,000–8,000+
- UAE: AED 10,000–40,000+

Equivalent to roughly:

- ₹1.7L – ₹8L+ for smaller custom projects, increasing significantly for enterprise deployments. (AgentSolutions)

8. BePrompter Pricing Strategy

Rather than competing only on price, BePrompter will offer productized AI solutions for SMEs and custom enterprise implementations for larger organizations.

Package Structure

Package	Selling Price
AI Agent Lite	₹34,999
AI Agent Pro	₹89,999
Enterprise AI Agent	Starting from ₹2,49,999

Marketing message:

Custom AI Agents starting from ₹34,999

9. Why ₹34,999?

This package is intentionally positioned as an entry-level product.

It is designed for businesses wanting to automate one business function without committing to a six-figure AI implementation.

Although many agencies begin quoting custom AI work at ₹1.5 lakh or more, offering a standardized Lite package at ₹34,999 allows BePrompter to attract SMEs while maintaining an upgrade path to higher-value engagements. (AgentSolutions)

10. AI Agent Lite Deliverables

Included:

- One AI Agent
- Web Chat Interface
- Knowledge Base
- Basic RAG
- Admin Dashboard
- Authentication
- Conversation History
- Analytics Dashboard
- Up to 1 Business Integration
- Deployment
- Basic Training
- 30 Days Support

Project Manager	₹70,000–₹1,50,000
Sales Executive	₹25,000–₹60,000 + Incentives

These are representative market ranges and vary by city, experience, and company size. (NexaEx)

20. Future Cost Allocation (Internal)

To keep pricing sustainable, BePrompter should also budget for:

- Research & Development
- Reusable AI modules
- Sales & Marketing
- Employee training
- Office & software subscriptions
- Legal & accounting
- Cloud infrastructure growth

These are not charged directly to a single client but should be recovered over time through healthy project margins and recurring maintenance revenue.

Pricing Note: At the ₹34,999 Lite tier, this should not be positioned as a fully custom AI agent. Instead, it is a productized implementation built from BePrompter's reusable platform with limited customization (one workflow, one integration, defined usage limits, and fixed deliverables). Deeper customization, multiple integrations, and more complex business logic are reserved for the ₹89,999 Pro package and above.

Service 02 – AI Voice Agent Solutions

1. Service Overview

AI Voice Agent Solutions enable businesses to automate inbound and outbound phone conversations using natural, human-like AI voices. These agents can answer calls, qualify leads, schedule appointments, provide customer support, conduct follow-ups, and integrate with CRM and business systems.

Unlike traditional IVR systems, AI Voice Agents understand natural language, maintain conversational context, and perform real business actions.

2. Ideal Customers

- Hospitals & Clinics
- Real Estate Companies
- Insurance Agencies
- Educational Institutions
- Hotels
- Restaurants
- Automobile Dealerships
- Finance Companies
- Customer Support Centers
- Logistics Companies
- Service-Based Businesses

3. Business Problems Solved

- Missed phone calls
- High customer support costs
- Slow appointment booking
- Manual lead qualification
- After-hours customer inquiries
- Inconsistent customer service
- Long call waiting times
- High staffing requirements

4. Voice Agent Types

- AI Receptionist
- Appointment Booking Agent
- Sales Calling Agent
- Lead Qualification Agent
- Customer Support Agent
- Debt Collection Reminder Agent
- Follow-up Calling Agent

- Survey & Feedback Agent
- Order Confirmation Agent
- Emergency Information Agent

5. Technology Stack

7. Market Pricing Analysis (2026)

India Typical pricing:

- Basic AI Receptionist: ₹30,000–₹80,000
- AI Calling Agent: ₹75,000–₹2,00,000
- Enterprise Voice Automation: ₹2,00,000–₹6,00,000+

In addition, most providers charge recurring telephony and AI usage fees.

International Typical pricing:

- USA: USD 3,000–15,000+
- UK: GBP 2,500–10,000+
- UAE: AED 15,000–60,000+

8. BePrompter Pricing Strategy

Package	Selling Price
Voice Agent Lite	₹49,999
Voice Agent Pro	₹1,24,999
Enterprise Voice AI	Starting ₹3,49,999

Marketing Message:

AI Voice Agents starting from ₹49,999

Unlike AI chat agents, voice systems require telephony integration, speech-to-text, text-to-speech, and real-time processing, which increases implementation complexity and ongoing operating costs.

9. Voice Agent Lite Deliverables

Included:

- One AI Voice Agent
- One Phone Number Integration
- Inbound Call Handling
- Appointment Booking
- FAQ Responses
- Call Logging
- CRM Integration (1)
- Admin Dashboard
- Call Analytics

- Technical support
- Minor workflow improvements

Usage charges (phone minutes and AI tokens) should be billed separately once the included quota is exceeded.

17. Optional Add-ons

Add-on	Price
WhatsApp Integration	₹15,000
CRM Integration (Additional)	₹20,000
Outbound Calling Campaign	₹30,000
Multi-language Support	₹15,000
Custom Analytics Dashboard	₹25,000
Voice Cloning (where permitted)	₹20,000
Additional Phone Number	₹10,000

18. Sales Positioning

Position this service as a way to reduce repetitive phone work, improve response times, and ensure customers receive immediate assistance 24/7.

Avoid describing it as an "AI answering machine." Instead, emphasize that it is an AI employee capable of answering, qualifying, booking, and updating business systems.

Pricing Note: For AI Voice Agents, avoid bundling unlimited calling into the package price. Voice AI incurs recurring costs (telephony, speech recognition, speech synthesis, and LLM usage), so pricing should clearly separate:

-
- Implementation Fee (one-time project)
 - Monthly Maintenance
 - Usage Charges (based on minutes, AI tokens, or both)

This protects margins as clients scale and keeps pricing transparent.

Service 03 – AI Workflow Automation

1. Service Overview

AI Workflow Automation helps businesses automate repetitive processes by connecting applications, AI models, databases, and communication channels into intelligent workflows.

Instead of employees manually moving information between systems, AI workflows execute tasks automatically, reducing errors, saving time, and improving operational efficiency.

This service combines workflow automation platforms (such as n8n), AI models, APIs, and business software to automate end-to-end business processes.

2. Ideal Customers

- SMEs
- Manufacturing Companies
- Healthcare Providers
- Educational Institutions
- Real Estate Firms
- HR & Recruitment Agencies
- Accounting Firms
- Logistics Companies
- E-commerce Businesses
- Marketing Agencies

3. Business Problems Solved

- Manual data entry
- Repetitive administrative tasks
- Slow lead management
- Manual report generation
- Human errors
- Delayed approvals
- Disconnected business systems
- Time-consuming notifications
- Manual invoice processing
- Inefficient customer onboarding

4. Workflow Examples

- Lead Capture & CRM Automation
- Invoice Processing
- HR Employee Onboarding
- Document Approval Workflow

- Sales Follow-up Automation
- Customer Support Ticket Routing
- WhatsApp Notification System
- Email Automation
- Inventory Updates
- Payment Reminder Automation
- Internal Approval Workflows
- AI Document Summarization

CRM Integration	₹20,000
ERP Integration	₹35,000
Approval Workflow Module	₹15,000

18. Sales Positioning

Position this service around business efficiency and cost reduction.

Example value proposition:

- Reduce repetitive work by up to 80%
- Faster approvals and response times
- Fewer manual errors
- Better visibility across business processes
- Free employees to focus on higher-value work

Focus on the business outcome rather than the automation technology itself.

Sales Note: AI Workflow Automation is positioned as BePrompter's most accessible entry-level service. At ₹29,999, it's often easier for businesses to approve than a larger AI implementation. Once a client sees

measurable time savings and operational improvements, the relationship can naturally expand into AI Agents, Voice Agents, WhatsApp Automation, or Custom Business Software, increasing the lifetime value of each client.

Service 04 – AI Integration Services

1. Service Overview

AI Integration Services help businesses seamlessly integrate AI capabilities into their existing software, applications, websites, CRMs, ERPs, and internal systems without rebuilding their technology stack.

Rather than replacing existing software, BePrompter enhances it with AI-powered features such as intelligent assistants, document analysis, automated content generation, workflow automation, predictive insights, and conversational interfaces.

2. Ideal Customers

- Existing Software Companies
- SaaS Companies
- Manufacturing Companies
- Healthcare Organizations
- Educational Institutions
- Real Estate Companies
- Financial Services
- E-commerce Businesses
- Enterprises using ERP or CRM
- Marketing Agencies

3. Business Problems Solved

18. Sales Positioning

Present this service as a way to modernize existing software without replacing it.

Example value proposition:

- Keep your current software
- Add AI capabilities quickly
- Reduce development time
- Improve employee productivity
- Extend the value of existing technology investments

Sales Note: AI Workflow Automation and AI Integration Services overlap significantly, and many agencies sell them as a single service. BePrompter keeps them separate because the buyer's intent is different:

- AI Workflow Automation is sold based on automating business processes.
- AI Integration Services is sold based on enhancing existing software and connecting systems.

This distinction makes it easier for the sales team to qualify leads and propose the right solution, even though both services often use similar underlying technologies.

Service 05 – WhatsApp & CRM

1. Service Overview

WhatsApp & CRM Automation enables businesses to automate customer communication, lead management, follow-ups, sales pipelines, appointment scheduling, and customer support by integrating WhatsApp Business with CRM systems and AI.

This solution helps businesses respond instantly, reduce manual work, improve lead conversion, and centralize customer interactions.

2. Ideal Customers

- Real Estate Agencies
- Hospitals & Clinics
- Educational Institutions
- Automobile Dealerships
- Insurance Companies
- Financial Services
- E-commerce Businesses
- Service-Based Companies
- Marketing Agencies
- SMEs

3. Business Problems Solved

- Slow response to customer inquiries
- Missed leads

Lead with business outcomes rather than technology.

Example value proposition:

- Never miss a lead again
- Respond to customers 24/7
- Automate follow-ups
- Increase sales conversion
- Centralize customer communication
- Reduce manual work for sales teams

This service is particularly compelling because businesses can often see measurable improvements in response times and lead handling soon after implementation.

Service 06 – Website Development

1. Service Overview

Website Development is BePrompter's comprehensive web development service designed to help businesses establish a strong digital presence, generate qualified leads, build customer trust, and support long-term business growth.

Unlike traditional website development agencies that focus only on design, BePrompter develops modern, secure, responsive, SEO-ready, and scalable websites that can evolve alongside a business. Every website is built with future expansion in mind, allowing seamless integration of AI capabilities, CRM systems, workflow automation, payment gateways, analytics platforms, and other business software as requirements grow.

Whether a client needs a fast template-based website, a fully customized business website, an e-commerce platform, or an enterprise-grade corporate website, BePrompter delivers solutions tailored to the client's business objectives while maintaining high performance, security, and user experience.

Our goal is not simply to build websites, but to create digital assets that generate measurable business value and serve as the foundation for future digital transformation.

7. Market Pricing Analysis (2026)

India The Indian website development market varies significantly based on project complexity, customization, technology stack, and agency expertise.

Typical market pricing:

- Basic Template Website: ₹5,000 – ₹20,000
- Custom Business Website: ₹20,000 – ₹80,000
- Premium Corporate Website: ₹80,000 – ₹3,00,000
- E-Commerce Website: ₹40,000 – ₹5,00,000+
- Enterprise Website & Portal: ₹2,00,000 – ₹15,00,000+

Many agencies charge additional fees for hosting, maintenance, SEO, content writing, payment gateway integration, and post-launch support.

International Typical website development pricing in international markets:

- USA: USD 2,000 – 30,000+
- UK: GBP 1,500 – 20,000+
- UAE: AED 8,000 – 100,000+
- Australia: AUD 3,000 – 40,000+

Equivalent to approximately ₹1.7 lakh to ₹25 lakh+, depending on project scope, integrations, design requirements, and agency reputation.

8. BePrompter Pricing Strategy

Rather than competing solely on the lowest price, BePrompter focuses on delivering high-quality, scalable, and future-ready websites that provide long-term business value. Every website is designed with a strong foundation, allowing clients to easily expand into AI automation, CRM integration, e-commerce, analytics, and custom software without rebuilding their website.

Our pricing strategy is built around standardized packages for SMEs and fully customized solutions for enterprises. This approach enables faster delivery, consistent quality, healthy profit margins, and a clear upgrade path as businesses grow.

Package Structure

12. Gross Profit

Package	Selling Price	Internal Cost	Gross	Gross Margin
Express Website	₹2,999	₹2,000	₹999	≈33%
Business Website	₹14,999	₹14,000	₹999	≈7%
E-Commerce Website	₹29,999	₹28,000	₹1,999	≈7%
Enterprise Website Target	Custom	Varies	Varies	40–55%

Note: While the Express Website package is intentionally priced as a low-cost entry product to acquire new customers, the Business Website and E-Commerce

Website packages should primarily serve as starting points for long-term client relationships. Revenue growth is expected through maintenance plans, feature enhancements, AI integrations, digital marketing, and future software development projects.

13. Partner Commission Model

Partner Type	Commission
Referral Partner	10%
Sales Partner	15%
Strategic Partner	20% (Founder Approval)

Example (Business Website – 15% Commission)

Item	Amount
Selling Price	₹14,999
Internal Cost	₹14,000

Partner Commission Profit Before Overhead Loss of ₹2,250

₹1,251

Recommendation

The current pricing for the Business Website and E-Commerce Website leaves insufficient margin, especially after paying partner commissions.

Recommended revised pricing before finalizing the catalog:

- Business Website: ₹24,999 (instead of ₹14,999)
- E-Commerce Website: ₹49,999 (instead of ₹29,999)

This would maintain healthy gross margins, allow partner commissions, and ensure sustainable profitability while remaining competitive in the Indian market. This recommendation is consistent with the financial approach used in your first five AI services, where margins were kept above 45–60% for long-term viability.

Pricing Note: The ₹14,999 Business Website and ₹29,999 E-commerce Website price points are not financially sustainable once partner commissions are paid and healthy margins are maintained. These prices should be reviewed and increased before this catalog is used for external sales.

14. Discount Policy

To maintain pricing consistency and protect project profitability, BePrompter follows a structured discount policy. Discounts should be used strategically during negotiations and must never compromise the quality of delivery.

Level	Maximum Discount
Sales Executive	5%
Channel Partner	10%
Strategic Partner	15%
Above 15% Package-wise Discount Guidelines	Founder Approval Required

Package Price	Preferred Closing	Minimum Selling Price
Express Website	₹2,999	No Discount
Business Website	₹24,999	₹22,999
E-Commerce Website	₹49,999	₹44,999
Enterprise Website	Based on Proposal	Founder Approval

Projects below the minimum selling price require written approval from the founder, as margins begin to reduce significantly.

15. Minimum Selling Price

The following minimum selling prices ensure sustainable project delivery while maintaining profitability.

Package Price	List Price	Preferred Closing	Minimum Selling
---------------	------------	-------------------	-----------------

	Price		
Express Website	₹2,999	₹2,999	₹2,999
Business Website	₹24,999	₹23,999–₹24,999	₹22,999
E-Commerce Website	₹49,999	₹47,999–₹49,999	₹44,999
Enterprise Website	Custom	Proposal Based	Founder Approval

Sales representatives should always aim to close deals within the preferred pricing range. Discounts should only be offered when necessary to secure strategically valuable clients.

16. Monthly Maintenance

Every website requires regular maintenance to remain secure, fast, and compatible with changing technologies.

Basic ₹999 / Month

Includes

- Website Backups
- Security Updates
- Plugin Updates
- Uptime Monitoring
- Minor Content Updates
- Email Support

Standard ₹2,999 / Month

Everything in Basic, plus:

- Performance Optimization
- Monthly SEO Health Check
- Broken Link Monitoring
- Priority Support
- Two Hours of Website Updates per Month

Premium ₹5,999 / Month

Everything in Standard, plus:

- Weekly Backups
- Advanced Security Monitoring
- Speed Optimization
- Monthly Performance Report
- Up to Five Hours of Website Changes
- Technical Consultation
- Priority Response

Third-party charges such as domain registration, hosting plans, premium plugins, email services, payment gateway fees, and SMS services are billed separately.

17. Optional Add-ons

Add-on	Price
Additional Website Page	₹1,000
Blog Setup	₹3,000
AI Chatbot Integration	₹25,000
AI Customer Support Agent	₹35,000
WhatsApp Automation	₹20,000
CRM Integration	₹25,000
Payment Gateway Integration	₹8,000
Booking & Appointment System	₹12,000
Google Business Profile Setup	₹3,000
Basic SEO Package	₹15,000
Advanced SEO Package	₹35,000
Multi-language Website	₹8,000
Professional Content Writing	₹8,000
Logo & Brand Identity Design	₹10,000
Email Setup	₹2,500
Custom Dashboard	₹30,000
Analytics Dashboard	₹20,000
API Integration	₹15,000
ERP Integration	₹50,000
AI Search Functionality	₹30,000
Voice Agent Integration	₹40,000

18. Sales Positioning

Website Development should never be positioned as simply "building a website."

Instead, position it as helping businesses establish a scalable digital foundation that supports future growth.

Example Value Proposition

- Build credibility with a professional online presence.
- Convert more visitors into qualified leads.
- Improve customer trust and brand perception.
- Deliver a fast, secure, and mobile-first experience.
- Create a website ready for future AI, automation, and CRM integrations.
- Reduce the need for costly redesigns as the business grows.

Sales teams should emphasize business outcomes rather than technical specifications.

19. Salary Benchmarks (India)

Role	Typical Monthly Salary
UI/UX Design Intern	₹15,000–₹25,000
UI/UX Designer	₹35,000–₹70,000
Frontend Developer	₹40,000–₹90,000
Backend Developer	₹50,000–₹1,20,000
Full Stack Developer	₹70,000–₹1,80,000
QA Engineer	₹30,000–₹70,000
DevOps Engineer	₹80,000–₹2,00,000
Project Manager	₹70,000–₹1,50,000
SEO Specialist	₹30,000–₹80,000
Sales Executive	₹25,000–₹60,000 + Incentives

These figures represent average salary ranges in India and may vary based on city, experience, company size, and specialization.

20. Future Cost Allocation (Internal)

To maintain long-term sustainability and continuously improve service quality, BePrompter should allocate a portion of revenue toward business growth and operational development.

Recommended internal allocations include:

- Research & Development
- UI/UX Design Improvements
- Reusable Website Components
- AI Feature Development
- Sales & Marketing
- Employee Training & Certifications
- Cloud Infrastructure Growth
- Software Licenses & Tools
- Security & Compliance
- Legal & Accounting
- Quality Assurance Improvements
- Brand Development

These investments are not charged directly to a single client but are recovered over time through healthy project margins, recurring maintenance plans, and long-term client relationships.

Sales Note: Website Development should serve as BePrompter's primary entry point for acquiring new clients. Every website should be designed with future expansion in mind, making it easy to upsell services such as AI Agents, WhatsApp & CRM Automation, AI Voice Agents, Business Software, Digital Marketing, and ongoing maintenance. This approach increases customer

lifetime value while positioning BePrompter as a long-term technology partner rather than a one-time website vendor.

Service 07 – Mobile App Development

1. Service Overview

Mobile App Development is BePrompter's end-to-end application development service that enables businesses to build scalable, secure, and high-performance mobile applications for Android, iOS, and cross-platform environments.

Modern customers expect businesses to be accessible anytime and anywhere through intuitive mobile experiences. BePrompter develops applications that not only provide exceptional user experiences but also integrate seamlessly with existing business systems, payment gateways, AI solutions, CRMs, ERPs, and workflow automation platforms.

Whether the objective is customer engagement, internal business operations, employee productivity, online commerce, or digital transformation, our mobile applications are designed to support long-term business growth while maintaining high security, scalability, and performance.

Rather than simply developing applications, BePrompter builds business-focused mobile solutions capable of evolving as organizations grow.

2. Ideal Customers

Mobile App Development is suitable for organizations across multiple industries, including:

- Startups
- Small & Medium Enterprises (SMEs)
- Large Enterprises
- E-Commerce Businesses

7. Market Pricing Analysis (2026)

India The Indian mobile application development market varies depending on supported platforms, integrations, security requirements, and overall application complexity.

Typical market pricing:

- Basic Business App: ₹50,000 – ₹2,00,000
- Professional Business App: ₹2,00,000 – ₹8,00,000
- E-Commerce Mobile App: ₹2,50,000 – ₹10,00,000+
- Enterprise Mobile Application: ₹8,00,000 – ₹50,00,000+

Most agencies charge separately for app maintenance, cloud infrastructure, app store publishing, API integrations, push notification services, analytics, and ongoing feature development.

International Typical pricing:

- USA: USD 10,000–150,000+
- UK: GBP 8,000–100,000+
- UAE: AED 40,000–500,000+

Equivalent to approximately ₹8.5 lakh to ₹1 crore+, depending on application complexity, supported platforms, integrations, security requirements, and ongoing maintenance.

8. BePrompter Pricing Strategy

Rather than competing only on price, BePrompter focuses on building reliable, scalable, and business-centric mobile applications that provide long-term value. Every application is developed using modern architecture, secure coding practices, and a modular approach, allowing businesses to expand functionality without rebuilding the application from scratch.

Our pricing strategy combines standardized packages for SMEs with fully customized enterprise solutions. This enables predictable delivery timelines, consistent quality, healthy profit margins, and future opportunities for AI integration, automation, analytics, and business software expansion.

Package Structure

Project costing depends on:

- Number of Platforms
- User Roles
- Third-party Integrations
- Infrastructure Requirements
- Security & Compliance
- Performance Requirements
- AI Features
- Deployment Architecture

Each enterprise project is estimated individually after the discovery phase.

11. Total Direct Project Cost

Package	Total Direct Cost
Business Mobile App	₹37,500
Professional Mobile App	₹86,500
Enterprise Mobile Application Scope	Based on Project

12. Gross Profit

Package	Selling	Internal Cost	Gross	Gross Margin
Price	Profit			
Business Mobile App	₹49,999	₹37,500	₹12,499	≈25%
Professional Mobile App	₹1,49,999	₹86,500	₹63,499	≈42%
Enterprise Mobile Application Target	Custom	Varies	Varies	45–60%

The Business Mobile App package is intentionally positioned as an entry-level offering to help businesses begin their mobile transformation journey. As clients expand their digital ecosystem, additional revenue is generated through maintenance, AI integrations, advanced modules, analytics, automation, and future feature development.

13. Partner Commission Model

Partner Type	Commission
Referral Partner	10%
Sales Partner	15%
Strategic Partner	20% (Founder Approval)

Example (Professional Mobile App – 15% Commission)

Item	Amount
Selling Price	₹1,49,999
Internal Cost	₹86,500
Partner Commission	₹22,500
Profit Before Overhead	₹40,999

The Professional Mobile App package provides a healthy balance between competitive pricing, sustainable margins, and attractive partner commissions. Enterprise projects should be individually priced to maintain target margins while accounting for project complexity, infrastructure, and long-term support.

14. Discount Policy

To maintain profitability while remaining competitive, BePrompter follows a structured discount policy. Discounts should be used strategically to close valuable opportunities without compromising delivery quality or long-term sustainability.

Level	Maximum Discount
Sales Executive	5%
Channel Partner	10%
Strategic Partner	15%

Above 15% Package-wise Discount Guidelines

Founder Approval Required

Offline Mode	₹20,000
App Store Optimization (ASO)	₹20,000
AI Recommendation Engine	₹40,000
AI Search	₹30,000

18. Sales Positioning

Mobile App Development should be positioned as a strategic investment that improves customer engagement, business efficiency, and long-term digital growth.

Example Value Proposition

- Deliver your business directly to your customers' smartphones.
- Improve customer engagement through personalized mobile experiences.
- Increase customer retention with push notifications and loyalty features.
- Enable secure online payments and digital transactions.
- Streamline internal operations with mobile-first business processes.
- Build an application ready for future AI, automation, and advanced analytics.

Sales teams should emphasize business outcomes, customer convenience, and long-term scalability rather than simply discussing application features.

19. Salary Benchmarks (India)

Role	Typical Monthly Salary
Mobile App Intern	₹15,000–₹30,000
Flutter Developer	₹40,000–₹80,000
React Native Developer	₹45,000–₹90,000
Android Developer	₹50,000–₹1,00,000
iOS Developer	₹60,000–₹1,20,000
Backend Developer	₹50,000–₹1,20,000
UI/UX Designer	₹35,000–₹80,000
QA Engineer	₹35,000–₹70,000
DevOps Engineer	₹80,000–₹2,00,000
Project Manager	₹70,000–₹1,50,000
Sales Executive	₹25,000–₹60,000 + Incentives

These salary ranges are representative of the Indian technology market and may vary based on location, experience, and company size.

20. Future Cost Allocation (Internal)

To ensure long-term sustainability and continuous innovation, BePrompter should allocate a portion of revenue from mobile application projects toward business development and operational improvements.

Recommended internal allocations include:

- Research & Development
- Mobile UI/UX Improvements

-
- Reusable Mobile Components
 - AI Feature Development
 - Cross-platform Framework Enhancements
 - Cloud Infrastructure Expansion
 - Security & Compliance
 - App Store Compliance & Updates
 - Employee Training & Certifications
 - Software Licenses & Development Tools
 - Sales & Marketing
 - Legal & Accounting
 - Quality Assurance Improvements

These investments are not billed directly to individual clients but are recovered through healthy project margins, recurring maintenance contracts, future upgrades, and long-term customer relationships.

Sales Note: Mobile applications should rarely be sold as standalone products. During the discovery phase, the sales team should explore opportunities to bundle complementary services such as Website

Development, Business Software, WhatsApp & CRM Automation, AI Agents, AI Voice Agents, and Digital Marketing. This approach creates a unified digital ecosystem for the client while increasing customer lifetime value and positioning BePrompter as a long-term technology partner rather than a project-based vendor.

Service 08 – Business Software

1. Service Overview

Business Software Development is BePrompter's end-to-end software engineering service for organizations seeking custom digital solutions to streamline operations, improve efficiency, and support long-term business growth.

Unlike off-the-shelf software that forces businesses to adapt to predefined workflows, BePrompter develops fully customized business applications designed around each organization's unique processes, departments, and operational requirements.

From CRM and ERP systems to inventory management, HRMS, hospital management, school ERP, manufacturing software, and industry-specific platforms, every solution is built to improve productivity, reduce manual work, centralize business data, and provide real-time business insights.

Every software solution is developed using scalable architecture, modern cloud infrastructure, and secure development practices, allowing future integration with AI Agents, Workflow Automation, Mobile Applications, Business Intelligence dashboards, and third-party systems.

Our objective is to become a long-term technology partner by building software that evolves alongside the business.

2. Ideal Customers

Business Software Development is suitable for organizations across multiple industries, including:

- Manufacturing Companies
- Healthcare Organizations
- Hospitals & Clinics
- Educational Institutions
- Schools & Universities
- Logistics Companies
- Warehousing Businesses
- Financial Services
- Real Estate Companies
- Construction Companies
- Retail Businesses
- Wholesale Distributors
- Government Organizations
- NGOs
- Hospitality Businesses
- HR & Recruitment Firms
- Accounting & CA Firms
- Law Firms
- Multi-location Enterprises

-
- Startups requiring custom platforms

3. Business Problems Solved

Many organizations continue to rely on spreadsheets, disconnected software, and manual workflows that reduce efficiency and increase operational costs. BePrompter's Business Software Development service addresses these challenges through centralized, scalable digital solutions.

Common business problems solved include:

- Manual business operations
- Data duplication across departments
- Lack of centralized information
- Human errors
- Slow approval workflows
- Poor inventory visibility
- Limited reporting capabilities
- No customer relationship management
- Inefficient employee management
- Paper-based processes
- Limited scalability
- Poor data security
- Lack of business automation
- No real-time dashboards
- Difficulty integrating with existing systems

4. Business Software Solutions

BePrompter develops a wide range of custom software solutions tailored to different business needs.

7. Market Pricing Analysis (2026)

India The Indian custom software development market varies widely based on project complexity, industry requirements, integrations, security standards, and deployment architecture.

Typical market pricing:

- CRM Development: ₹2,00,000 – ₹10,00,000
- HRMS Development: ₹2,50,000 – ₹8,00,000
- Inventory Management Software: ₹2,00,000 – ₹10,00,000
- School ERP: ₹5,00,000 – ₹20,00,000
- Hospital Management Software: ₹8,00,000 – ₹30,00,000
- ERP Systems: ₹10,00,000 – ₹1 Crore+
- Enterprise Software: ₹15,00,000 – ₹5 Crore+

Many software companies also charge separately for implementation, user training, cloud hosting, annual maintenance contracts (AMC), feature enhancements, and technical support.

International Typical pricing:

- USA: USD 25,000–500,000+
- UK: GBP 20,000–350,000+
- UAE: AED 100,000–2,000,000+

Equivalent to approximately ₹20 lakh to ₹4 crore+, depending on software complexity, security requirements, scalability, integrations, compliance, and infrastructure.

8. BePrompter Pricing Strategy

BePrompter positions Business Software Development as a premium, value-driven service focused on solving operational challenges rather than simply delivering software. Every solution is tailored to the client's workflows, ensuring long-term scalability, maintainability, and measurable business impact.

Our pricing strategy combines standardized pricing for common business systems with customized quotations for enterprise-grade solutions. This approach ensures transparent pricing for SMEs while providing flexibility for large-scale implementations.

- Deployment Architecture

Each project is estimated individually after the discovery phase.

11. Total Direct Project Cost

Solution	Total Direct Cost
CRM	₹1,44,000
HRMS	₹1,75,000
Inventory Management	₹2,15,000
School ERP	₹2,95,000
ERP System	₹3,40,000
Hospital Management	₹4,05,000
Custom Enterprise Software	Based on Scope

12. Gross Profit

Solution Price	Selling	Internal Cost	Gross Profit	Gross Margin
CRM	₹1,49,999	₹1,44,000	₹5,999	≈4%
HRMS	₹1,99,999	₹1,75,000	₹24,999	≈12%
Inventory Management	₹2,49,999	₹2,15,000	₹34,999	≈14%
School ERP	₹3,49,999	₹2,95,000	₹54,999	≈16%
ERP System	₹3,99,999	₹3,40,000	₹59,999	≈15%
Hospital Management	₹4,99,999	₹4,05,000	₹94,999	≈19%
Enterprise Software Target	Custom	Custom	45–60%	45–60%

Internal Recommendation: The CRM, HRMS, Inventory, ERP, and Hospital Management packages are significantly underpriced for custom software projects. For sustainable profitability, partner commissions, and future maintenance, consider increasing the starting prices (e.g., CRM from ₹1.5L to ₹2.5L+, ERP from ₹4L to ₹6–8L+, Hospital Management from ₹5L to ₹8–10L+). This would better reflect market rates while preserving healthy margins.

13. Partner Commission Model

Partner Type	Commission
Referral Partner	10%
Sales Partner	15%
Strategic Partner	20% (Founder Approval)

Example (ERP System – 15% Commission)

Item	Amount
Selling Price	₹3,99,999
Internal Cost	₹3,40,000

Partner Commission Profit Before Overhead Loss of ₹60,000

₹1

Recommendation

At the current pricing, paying a 15% partner commission would eliminate the entire project profit for several software offerings. Before using this catalog for sales, revise the base pricing to achieve a target gross margin of at least 40–50%, ensuring enough room for commissions, overhead, and future product investment. This aligns with the financial model recommended for your other premium services.

14. Discount Policy

To maintain sustainable profitability while remaining competitive, BePrompter follows a structured discount policy for Business Software Development projects. Since these projects require significant engineering effort, business analysis, and long-term support, discounts should be offered selectively.

Level	Maximum Discount
Sales Executive	5%
Channel Partner	10%
Strategic Partner	15%
Above 15% Solution-wise Discount Guidelines	Founder Approval Required

Solution Price	Preferred Closing	Minimum Selling Price
CRM	₹2,49,999	₹2,29,999
HRMS	₹2,99,999	₹2,69,999
Inventory Management	₹3,49,999	₹3,19,999
School ERP	₹4,99,999	₹4,49,999

ERP System	₹6,99,999	₹6,29,999
Hospital Management	₹8,99,999	₹7,99,999
Enterprise Software	Proposal Based	Founder Approval

Projects below the minimum selling price require founder approval to protect project viability and long-term support commitments.

15. Minimum Selling Price

The following pricing ensures that every software implementation remains commercially sustainable while allowing for partner commissions, operational expenses, and future product enhancements.

Solution	List Price	Preferred Closing	Minimum Selling
Price	Price		
CRM	₹2,49,999	₹2,39,999– ₹2,49,999	₹2,29,999

Cloud Migration	₹1,00,000
SSO (Single Sign-On)	₹40,000
Audit Logs	₹35,000
Custom Reports & Dashboards	₹50,000

18. Sales Positioning

Business Software Development should be positioned as a long-term investment that improves operational efficiency, reduces manual work, and enables data-driven decision-making.

Example Value Proposition

- Replace spreadsheets and disconnected systems with a unified platform.
- Automate repetitive business processes to improve productivity.
- Centralize business data across departments.
- Gain real-time insights through dashboards and reporting.
- Improve operational accuracy and reduce human errors.
- Build software that scales with business growth.
- Prepare the business for future AI automation and advanced analytics.

Sales representatives should focus discussions on measurable business outcomes such as efficiency gains, cost savings, faster decision-making, and improved customer service.

19. Salary Benchmarks (India)

Role	Typical Monthly Salary
Business Analyst	₹50,000–₹1,20,000
UI/UX Designer	₹40,000–₹90,000
Frontend Developer	₹50,000–₹1,00,000
Backend Developer	₹60,000–₹1,40,000
Full Stack Developer	₹80,000–₹2,00,000
QA Engineer	₹40,000–₹80,000
DevOps Engineer	₹90,000–₹2,20,000
Database Administrator	₹70,000–₹1,60,000
Solution Architect	₹1,50,000–₹4,00,000
Project Manager	₹80,000–₹2,00,000
Sales Executive	₹30,000–₹70,000 + Incentives

These salary ranges represent typical compensation in India's software services industry and may vary based on experience, city, and project complexity.

20. Future Cost Allocation (Internal)

To maintain long-term competitiveness and continuously improve enterprise software capabilities, BePrompter should allocate a portion of software project revenue toward strategic investments.

Recommended allocation areas include:

- Research & Development
- Reusable Software Modules
- Industry-Specific Product Templates
- AI & Machine Learning Capabilities
- Cloud Infrastructure Expansion
- Security & Compliance
- Quality Assurance Automation
- DevOps & CI/CD Improvements
- Employee Training & Certifications
- Software Licenses & Development Tools
- Sales & Marketing
- Legal & Accounting
- Customer Success & Support

These investments are recovered through project margins, annual maintenance contracts, recurring feature development, and long-term customer relationships rather than being charged directly to a single client.

Recommendation Before Service 09

Business Software Development should be positioned as BePrompter's flagship enterprise offering. Instead of selling isolated modules, the sales team should encourage clients to adopt an integrated ecosystem—combining ERP, CRM, HRMS, mobile applications, AI Agents, workflow automation, and analytics. This approach increases operational value for clients while significantly improving recurring revenue and customer lifetime value for BePrompter.

Service 09 – E-Commerce Solutions

1. Service Overview

E-Commerce Solutions is BePrompter's end-to-end service for designing, developing, and scaling online stores that enable businesses to sell products and services through digital channels.

Beyond creating an online storefront, BePrompter builds complete commerce ecosystems that integrate inventory management, payment gateways, logistics, customer relationship management (CRM), marketing automation, analytics, and AI-powered customer engagement.

Whether launching a new online business or transforming an existing retail operation, every e-commerce platform is designed to maximize conversions, improve operational efficiency, and support long-term business growth.

Our solutions are scalable, secure, mobile-first, and ready for future expansion through AI Agents, Voice Commerce, personalized recommendations, automation, and omnichannel selling.

- ERP & CRM Integrations

International

Typical pricing:

- USA: USD 15,000–300,000+
- UK: GBP 12,000–250,000+
- UAE: AED 60,000–1,500,000+

Equivalent to approximately ₹12 lakh to ₹2.5 crore+, depending on product catalog size, marketplace functionality, AI capabilities, integrations, security requirements, and infrastructure.

8. BePrompter Pricing Strategy

BePrompter positions E-Commerce Solutions as complete digital commerce platforms rather than simple online stores. Every solution is designed to help businesses increase online sales, automate operations, improve customer experience, and scale efficiently.

Our pricing strategy is based on the complexity of the commerce ecosystem, including product management, inventory, payment processing, logistics, customer engagement, and future AI capabilities.

Package Structure

Package	Starting Price
Starter E-Commerce Store	₹49,999
Professional E-Commerce Platform	₹1,49,999

10. Internal Cost Breakdown

Starter E-Commerce Store Development Cost

Activity	Cost
UI/UX Design	₹8,000
Frontend Development	₹12,000
Backend Development	₹10,000
Payment Gateway	₹3,000
Testing & QA	₹4,000
Project Management	₹3,000
Development Total Infrastructure Cost	₹40,000

Component	Cost
Cloud Setup	₹1,000
Database	₹500
Storage	₹500
Monitoring	₹500
Infrastructure Total Support	₹2,500

Component	Cost
Documentation	₹1,000
Client Training	₹1,000
Initial Support	₹2,500

Support Total Professional E-Commerce Platform Estimated Internal Cost ₹4,500

Component	Cost
Development	₹1,00,000
Infrastructure	₹5,000
Support	₹10,000

Total Enterprise Commerce Solution Estimated Internal Cost ₹1,15,000

Component	Cost
Development	₹3,40,000
Infrastructure	₹20,000
Support	₹30,000
Total Marketplace Development Estimated Internal Cost	₹3,90,000

Component	Cost
Development	₹6,80,000
Infrastructure	₹40,000
Support	₹60,000
Total	₹7,80,000

11. Total Direct Project Cost

Solution	Total Direct Cost
Starter Store	₹47,000
Professional Platform	₹1,15,000
Enterprise Commerce	₹3,90,000
Marketplace	₹7,80,000

12. Gross Profit

Solution	Selling Price	Internal Cost	Gross	Gross Margin
	Profit			
Starter Store	₹49,999	₹47,000	₹2,999	≈6%
Professional Platform	₹1,49,999	₹1,15,000	₹34,999	≈23%
Enterprise Commerce	₹4,99,999	₹3,90,000	₹1,09,999	≈22%
Marketplace	₹9,99,999	₹7,80,000	₹2,19,999	≈22%

Internal Recommendation: Similar to the Business Software service, the current pricing for the Starter, Professional, and Enterprise packages leaves limited room for commissions, overhead, and future investment. For healthier 40–50% gross

margins, consider revising prices to approximately ₹79,999 for the Starter Store,

₹2,49,999 for the Professional Platform, ₹6,99,999 for the Enterprise Commerce

Solution, and ₹12,99,999+ for Marketplace Development.

13. Partner Commission Model

Partner Type	Commission
Referral Partner	10%
Sales Partner	15%
Strategic Partner	20% (Founder Approval)

Example (Professional E-Commerce Platform – 15% Commission)

Item	Amount
Selling Price	₹1,49,999
Internal Cost	₹1,15,000
Partner Commission	₹22,500
Profit Before Overhead	₹12,499

The Professional package maintains a positive margin after partner commissions, but increasing the package price would provide greater flexibility for discounts, marketing expenses, and future product improvements. Enterprise and Marketplace projects should always be quoted based on detailed discovery to ensure sustainable profitability.

14. Discount Policy

To maintain profitability while remaining competitive, BePrompter follows a structured discount policy for all E-Commerce Solutions. Discounts should be offered strategically and only when they support long-term customer acquisition or high-value business opportunities.

Level	Maximum Discount
Sales Executive	5%
Channel Partner	10%
Strategic Partner	15%
Above 15% Package-wise Discount Guidelines	Founder Approval Required

Package Price	Preferred Closing	Minimum Selling Price
Starter Store	₹79,999	₹74,999

Professional Platform	₹2,49,999	₹2,24,999
Enterprise Commerce	₹6,99,999	₹6,29,999
Marketplace Development	₹12,99,999	Founder Approval

Projects below the minimum selling price require founder approval to protect project profitability and delivery quality.

15. Minimum Selling Price

The following pricing structure ensures sustainable delivery while allowing sufficient margin for commissions, support, infrastructure, and future product improvements.

Package Price	List Price	Preferred Closing	Minimum Selling Price
Starter Store	₹79,999	₹77,999–₹79,999	₹74,999
Professional Platform	₹2,49,999	₹2,39,999– ₹2,49,999	₹2,24,999
Enterprise Commerce	₹6,99,999	₹6,79,999– ₹6,99,999	₹6,29,999
Marketplace Development	₹12,99,999 Proposal Based	Founder Approval	

Sales teams should prioritize selling based on business value, scalability, and long-term ROI rather than competing solely on price.

16. Monthly Maintenance

E-commerce platforms require continuous updates, security monitoring, and performance optimization to ensure uninterrupted business operations.

Basic ₹7,999 / Month

Includes:

- Security Updates
- Weekly Backups
- Bug Fixes
- Performance Monitoring
- Technical Support
- Basic Product Assistance

Professional ₹19,999 / Month

Everything in Basic, plus:

- Database Optimization

- Inventory Health Check
- Monthly Performance Report
- Priority Support
- Up to 5 Hours of Enhancements

Enterprise

Starting from ₹39,999 / Month

Everything in Professional, plus:

- Dedicated Account Manager
- SLA-Based Support
- Infrastructure Monitoring
- Advanced Security Audits
- Disaster Recovery Planning
- AI Performance Monitoring
- Monthly Business Review
- Feature Enhancement Hours

Hosting, CDN, cloud infrastructure, payment gateway fees, shipping provider charges, AI API costs, SMS/Email services, and third-party subscriptions are billed separately based on actual usage.

17. Optional Add-ons

Add-on	Price
AI Product Recommendation Engine	₹50,000
AI Shopping Assistant	₹60,000
AI Voice Shopping Agent	₹75,000
WhatsApp Commerce Integration	₹30,000
Mobile Shopping App	₹1,50,000
Loyalty & Rewards Program	₹40,000
Subscription Management	₹35,000
Multi-vendor Module	₹2,00,000
Multi-language Support	₹40,000
Advanced Search & Filters	₹30,000
Product Import & Migration	₹25,000
ERP Integration	₹75,000
CRM Integration	₹40,000
Accounting Software Integration	₹35,000
Marketing Automation	₹50,000
Email & SMS Automation	₹25,000
Analytics Dashboard	₹50,000
API Integration (Additional)	₹25,000

Warehouse Management Module	₹80,000
POS Integration	₹60,000

18. Sales Positioning

E-Commerce Solutions should be positioned as complete digital commerce ecosystems that help businesses increase revenue, improve operational efficiency, and build long-term customer relationships.

Example Value Proposition

- Sell products 24x7 through a secure online platform.
- Automate order processing, inventory management, and customer communication.
- Deliver a seamless shopping experience across desktop and mobile devices.
- Integrate payments, logistics, CRM, and marketing into one unified platform.
- Increase repeat purchases through loyalty programs, automation, and personalized recommendations.
- Build a scalable platform capable of supporting future AI features and business expansion.

Sales representatives should focus on revenue growth, operational efficiency, customer experience, and scalability rather than technical specifications.

19. Salary Benchmarks (India)

Role	Typical Monthly Salary
UI/UX Designer	₹40,000–₹90,000
Frontend Developer	₹50,000–₹1,00,000
Backend Developer	₹60,000–₹1,40,000
Full Stack Developer	₹80,000–₹2,00,000
QA Engineer	₹40,000–₹80,000
DevOps Engineer	₹90,000–₹2,20,000
Database Administrator	₹70,000–₹1,60,000
E-Commerce Specialist	₹50,000–₹1,20,000
Project Manager	₹80,000–₹2,00,000
Sales Executive	₹30,000–₹70,000 + Incentives

These salary ranges represent average compensation in India's e-commerce and software development industry and may vary depending on experience, location, and organization size.

20. Future Cost Allocation (Internal)

To continuously improve BePrompter's E-Commerce Solutions and remain competitive, a portion of project revenue should be allocated toward long-term investments.

Recommended allocation areas include:

- Research & Development
- AI Commerce Features
- Reusable E-Commerce Components
- Cloud Infrastructure Expansion
- Security & Compliance
- Performance Optimization
- DevOps & CI/CD Automation
- Marketplace Framework Development
- Employee Training & Certifications
- Software Licenses & Development Tools
- Sales & Marketing
- Legal & Accounting
- Customer Success & Technical Support

These investments strengthen BePrompter's commerce offerings over time and are recovered through healthy project margins, maintenance contracts, recurring feature development, and long-term client partnerships.

Recommendation Before Service 10

E-Commerce projects should be treated as long-term growth partnerships rather than one-time website builds. Every client should be offered complementary services such as Digital Marketing & SEO, AI Chatbots, AI Voice Agents, WhatsApp & CRM Automation, Mobile Applications, Business Software, and Analytics Dashboards. This integrated approach increases online sales for the client while significantly improving recurring revenue and customer lifetime value for BePrompter.

Service 10 – Digital Marketing & SEO

1. Service Overview

Digital Marketing & SEO is BePrompter's comprehensive growth service designed to help businesses increase brand visibility, generate qualified leads, improve customer acquisition, and maximize return on marketing investment (ROI).

Rather than offering isolated marketing services, BePrompter develops integrated digital growth strategies combining Search Engine Optimization (SEO), Paid Advertising, Social Media Marketing, Content Marketing, Email Marketing, Conversion Rate Optimization (CRO), and AI-powered marketing automation.

Every campaign is built around measurable business objectives using analytics, performance tracking, customer insights, and continuous optimization.

Our objective is not simply to increase website traffic but to generate qualified leads, improve conversions, strengthen brand authority, and create sustainable long-term growth.

2. Ideal Customers

Digital Marketing & SEO services are suitable for:

- Startups
- Small & Medium Enterprises (SMEs)

Service	Timeline
Initial Marketing Audit	3–5 Days
SEO Setup Weeks	1–2
Paid Ads Launch	3–7 Days
Social Media Setup	3–5 Days
Email Marketing Setup	1 Week
Marketing Automation Weeks	2–4

Digital marketing is an ongoing service. While initial setups can be completed within days or weeks, measurable improvements in SEO, brand awareness, and organic traffic typically require several months of continuous optimization.

7. Market Pricing Analysis (2026)

India Typical monthly agency pricing:

- Local SEO: ₹10,000 – ₹30,000
- Complete SEO: ₹25,000 – ₹1,00,000+
- Social Media Management: ₹15,000 – ₹75,000
- Google Ads Management: ₹20,000 – ₹1,50,000
- Performance Marketing: ₹30,000 – ₹3,00,000
- Enterprise Digital Marketing: ₹1,00,000 – ₹10,00,000+

Most agencies charge separately for:

- Advertising Budget
- Graphic Design
- Video Production
- Landing Pages
- Content Writing
- Marketing Software
- AI Tools
- Analytics Platforms

International Typical pricing:

- USA: USD 2,000–25,000+ per month
- UK: GBP 1,500–20,000+ per month
- UAE: AED 8,000–100,000+ per month

Equivalent to approximately ₹1.7 lakh to ₹20 lakh+ per month, depending on campaign size, number of platforms, advertising budget, competition, and business objectives.

8. BePrompter Pricing Strategy

BePrompter positions Digital Marketing & SEO as a business growth partnership rather than a one-time marketing service. Every campaign is built around measurable KPIs such as qualified leads, revenue growth, customer acquisition cost (CAC), return on ad spend (ROAS), search rankings, and conversion rate optimization.

Our pricing is based on the scope of work, number of marketing channels managed, campaign complexity, content requirements, and level of strategic support.

Total	₹22,000
-------	---------

11. Total Direct Monthly Cost

Package	Total Direct Cost
Starter Growth	₹18,000
Business Growth	₹40,000
Enterprise Growth	₹78,000
Performance Marketing	₹22,000

12. Gross Profit

Package Profit	Monthly Fee	Internal Cost	Gross	Gross Margin
Starter Growth	₹19,999	₹18,000	₹1,999	≈10%
Business Growth	₹49,999	₹40,000	₹9,999	≈20%
Enterprise Growth	₹99,999	₹78,000	₹21,999	≈22%
Performance Marketing	₹29,999	₹22,000	₹7,999	≈27%

Internal Recommendation: These retainers are suitable for market entry but leave limited room for commissions and business overhead. For long-term sustainability,

consider pricing the Business Growth Package at ₹59,999–₹69,999/month and the

Enterprise Growth Package at ₹1,29,999+/month, especially for clients requiring

dedicated resources or multi-channel campaign management.

13. Partner Commission Model

Partner Type	Commission
Referral Partner	10%
Sales Partner	15%
Strategic Partner	20% (Founder Approval)

Example (Business Growth Package – 15% Commission)

Item	Amount
Monthly Fee	₹49,999
Internal Cost	₹40,000
Partner Commission	₹7,500
Profit Before Overhead	₹2,499

Recurring monthly retainers generate predictable revenue and high customer lifetime value. However, partner commissions should be carefully managed, and pricing should be reviewed periodically to maintain healthy margins as service scope expands.

14. Discount Policy

BePrompter follows a structured pricing policy to ensure long-term profitability while remaining competitive in the digital marketing industry. Since Digital Marketing is a recurring service, pricing discipline is essential to maintain service quality and sustainable client relationships.

Level	Maximum Discount
Sales Executive	5%
Channel Partner	10%
Strategic Partner	15%
Above 15% Package-wise Discount Guidelines	Founder Approval Required

Package Price	Preferred Closing	Minimum Monthly Price
Starter Growth	₹24,999	₹22,999
Business Growth	₹69,999	₹62,999
Enterprise Growth	₹1,29,999	₹1,14,999
Performance Marketing	₹39,999	₹36,999

Note: Advertising budget is never discounted since it is paid directly toward advertising platforms.

15. Minimum Selling Price

The following pricing ensures healthy profit margins while supporting recurring operations, software subscriptions, reporting, strategy sessions, and account management.

Package Price	List Price	Preferred Closing	Minimum Selling Price
Starter Growth	₹24,999	₹23,999–₹24,999	₹22,999
Business Growth	₹69,999	₹67,999–₹69,999	₹62,999
Enterprise Growth	₹1,29,999	₹1,24,999–₹1,29,999	₹1,14,999
Performance Marketing	₹39,999	₹38,999–₹39,999	₹36,999

Sales teams should emphasize measurable business outcomes, lead generation, and ROI rather than competing solely on monthly pricing.

16. Monthly Service & Retainer Plans

Since Digital Marketing is a recurring service, clients subscribe to ongoing monthly retainers.

18. Sales Positioning

Digital Marketing should be positioned as a revenue-generation investment rather than a marketing expense.

Example Value Proposition

- Increase qualified leads through SEO and paid advertising.
- Improve Google rankings and online visibility.
- Reduce customer acquisition costs through optimized campaigns.
- Build long-term brand authority with strategic content.
- Track marketing performance through measurable KPIs and analytics.
- Automate lead nurturing and customer engagement using AI-powered workflows.
- Scale marketing efforts efficiently as the business grows.

Sales teams should focus discussions on business growth, lead quality, revenue impact, and return on investment instead of simply describing marketing activities.

19. Salary Benchmarks (India)

Role	Typical Monthly Salary
SEO Executive	₹25,000–₹50,000
SEO Specialist	₹40,000–₹80,000
Performance Marketing Specialist	₹50,000–₹1,20,000

Google Ads Specialist	₹45,000–₹1,00,000
Meta Ads Specialist	₹40,000–₹90,000
Content Writer	₹30,000–₹70,000
Graphic Designer	₹35,000–₹80,000
Video Editor	₹35,000–₹80,000
Marketing Strategist	₹80,000–₹2,00,000

Account Manager	₹60,000–₹1,20,000
Sales Executive	₹30,000–₹70,000 + Incentives

These figures represent average salary ranges in India's digital marketing industry and may vary based on expertise, certifications, city, and agency size.

20. Future Cost Allocation (Internal)

To remain competitive in the rapidly evolving digital marketing industry, BePrompter should continuously invest in innovation, talent development, and marketing technologies.

Recommended investment areas include:

- AI Marketing Automation
- SEO Research & Algorithm Updates
- Advertising Platform Certifications
- Content Production Systems
- Analytics & Reporting Improvements
- Creative Design Resources
- Marketing Software & AI Tools
- Employee Training & Certifications
- Campaign Testing & Optimization
- Sales & Marketing
- Legal & Compliance
- Customer Success & Retention

These investments are funded through recurring retainers, long-term client relationships, maintenance contracts, and upselling complementary services such as Website Development, E-Commerce Solutions, AI Agents, CRM Automation, and AI Video Generation.

Recommendation Before Service 11

Digital Marketing & SEO should be positioned as BePrompter's primary recurring revenue service. Nearly every client purchasing Website Development, E-Commerce Solutions, Mobile Apps, or Business Software should be offered a monthly marketing retainer. This creates predictable recurring revenue while helping clients continuously grow their online presence, generate leads, and maximize the return on their technology investments.

Service 11 – AI Video Generation & UGC

1. Service Overview

AI Video Generation & UGC Ads is BePrompter's creative content production service that helps businesses produce high-quality marketing videos, social media content, product demonstrations, advertisements, and user-generated content (UGC) using Artificial Intelligence.

Traditional video production is often expensive, time-consuming, and difficult to scale. BePrompter combines AI-powered video generation, AI avatars, AI voiceovers, motion graphics, scriptwriting, editing, and marketing strategy to create professional videos at a significantly lower cost and faster turnaround.

Whether businesses require social media reels, YouTube content, Meta advertisements, product explainers, training videos, testimonial videos, AI spokespersons, or multilingual marketing campaigns, every video is optimized for engagement, conversions, and brand consistency.

Our objective is to help businesses create content faster, reduce production costs, and scale marketing efforts using AI-powered creative workflows.

2. Ideal Customers

AI Video Generation & UGC Ads are suitable for:

- Startups
- SMEs
- E-Commerce Brands
- D2C Companies
- Digital Marketing Agencies
- SaaS Companies
- Healthcare Providers

- UK: GBP 2,000–40,000+ per month
- UAE: AED 10,000–200,000+ per month

Equivalent to approximately ₹2.5 lakh to ₹40 lakh+ per month, depending on production

volume, creative complexity, AI licensing, multilingual support, and campaign scale.

8. BePrompter Pricing Strategy

BePrompter positions AI Video Generation & UGC Ads as a scalable content production solution that enables businesses to publish consistently, reduce production costs, and improve marketing performance.

Instead of charging solely per video, our pricing is based on content volume, creative complexity, AI tools utilized, revisions, and strategic support.

Package Structure

Package	Monthly Fee
Starter Content Package	₹14,999
Business Content Package	₹39,999
Enterprise Content Package	₹99,999

10. Internal Cost Breakdown

Starter Content Package Production Cost

Activity	Cost
Script Writing	₹2,000
AI Video Generation	₹3,000
Editing	₹2,500
Quality Assurance	₹1,000
Project Management	₹1,500
Production Total AI Tools & Software	₹10,000

Component	Cost
AI Video Platforms	₹1,200
AI Voice Tools	₹500
Editing Software	₹800
Tools Total Support	₹2,500

Component	Cost
Client Communication	₹800
Revisions	₹700
Monthly Review	₹1,000

Support Total Business Content Package Estimated Monthly Cost ₹2,500

Component	Cost
Creative Production	₹20,000
AI Software	₹5,000
Editing Team	₹5,000
Account Management	₹4,000
Reporting	₹3,000

Total Enterprise Content Package Estimated Monthly Cost ₹37,000

Component	Cost
Creative Team	₹45,000
AI Platforms	₹12,000
Editing Team	₹15,000
Account Management	₹8,000
Strategy & Reporting	₹8,000

Total UGC Advertisement Estimated Cost Per Video ₹88,000

Component	Cost
Script Writing	₹800
AI Generation	₹1,500
Editing	₹1,200
Review & QA	₹500
Project Coordination	₹500
Total	₹4,500

11. Total Direct Monthly Cost

Package	Total Direct Cost
Starter Content	₹15,000
Business Content	₹37,000
Enterprise Content	₹88,000
UGC Advertisement	₹4,500 / Video

12. Gross Profit

Package	Selling	Internal Cost	Gross	Gross Margin
Price	Profit			

Starter Content	₹14,999	₹15,000	-₹1	≈0%
Business Content	₹39,999	₹37,000	₹2,999	≈8%
Enterprise Content	₹99,999	₹88,000	₹11,999	≈12%
UGC Advertisement	₹7,500	₹4,500	₹3,000	≈40%

Internal Recommendation: The monthly content packages are underpriced for the proposed scope. To maintain sustainable operations and allow partner

commissions, consider revising the pricing to approximately ₹24,999/month for the

Starter Package, ₹59,999/month for the Business Package, and

₹1,49,999+/month for the Enterprise Package. The UGC Advertisement pricing already provides a healthy margin and can remain unchanged.

13. Partner Commission Model

Partner Type	Commission
Referral Partner	10%
Sales Partner	15%
Strategic Partner	20% (Founder Approval)

Example (Business Content Package – 15% Commission)

Item	Amount
Monthly Fee	₹39,999
Internal Cost	₹37,000

Partner Commission Profit Before Overhead Loss of ₹6,000

₹3,001

Recommendation

Recurring content packages should be priced to achieve a minimum 40% gross margin before

commissions and overhead. This ensures profitability while supporting software subscriptions, creative resources, account management, and ongoing innovation. UGC Advertisement projects can continue to use the current pricing model due to their stronger unit economics.

14. Discount Policy

BePrompter follows a structured pricing policy to maintain profitability while delivering high-quality creative services. Since AI Video Generation is a recurring service that relies on premium AI tools, creative talent, and continuous revisions, discounts should be applied carefully.

Level	Maximum Discount
--------------	-------------------------

Sales Executive	5%
Channel Partner	10%
Strategic Partner	15%
Above 15% Package-wise Discount Guidelines	Founder Approval Required

Package Price	Preferred Closing	Minimum Monthly Price
Starter Content	₹24,999	₹22,999
Business Content	₹59,999	₹54,999
Enterprise Content	₹1,49,999	₹1,34,999
UGC Advertisement	₹7,500 / Video	₹6,999 / Video

Projects below the minimum selling price require founder approval to ensure sustainable project delivery and service quality.

15. Minimum Selling Price

The following pricing structure ensures sufficient margins for creative production, AI software subscriptions, revisions, and account management.

Package Price	List Price	Preferred Closing	Minimum Selling Price
Starter Content	₹24,999	₹23,999–₹24,999	₹22,999
Business Content	₹59,999	₹57,999–₹59,999	₹54,999
Enterprise Content	₹1,49,999	₹1,44,999– ₹1,49,999	₹1,34,999
UGC Advertisement	₹7,500 / Video	₹7,500	₹6,999

Sales teams should focus discussions on the client's marketing goals, production efficiency, and expected return on investment instead of comparing price per video.

16. Monthly Content Retainers

Content creation is most effective when delivered consistently over time. BePrompter therefore offers recurring monthly content retainers.

Starter Creator ₹24,999 / Month

Includes:

- 8 AI Videos
- Content Planning
- Script Writing
- AI Voiceovers
- Monthly Content Calendar

- One Revision
- Monthly Performance Review

Everything in Business, plus:

- Dedicated Creative Team
- Campaign Strategy
- High-Volume Content Production
- Multi-language Videos
- Weekly Strategy Meetings
- Executive Reporting
- SLA-Based Delivery
- Priority Creative Queue

Premium AI model subscriptions, stock footage, licensed music, paid advertising, influencer collaborations, third-party voice licenses, and translation services are billed separately unless specifically included in the proposal.

17. Optional Add-ons

Add-on	Price
Additional AI Video	₹2,500
AI UGC Advertisement	₹7,500
Premium AI Avatar	₹15,000
Professional Human Voiceover	₹5,000
Multi-language Version Language	₹3,000 /
Motion Graphics Package	₹10,000
YouTube Long-form Video	₹15,000
Product Explainer Video	₹20,000
Animated Explainer Video	₹35,000
YouTube Thumbnail Design	₹1,500

Social Media Thumbnail Set	₹3,500
Content Strategy Workshop	₹15,000
Monthly Content Calendar	₹10,000
Video SEO Optimization	₹8,000
Subtitle & Caption Package	₹3,000
Platform-specific Editing	₹5,000
AI Voice Cloning	₹20,000
Brand Intro/Outro Animation	₹8,000
Social Media Distribution	₹15,000
Analytics Dashboard	₹20,000

18. Sales Positioning

AI Video Generation should be positioned as a scalable marketing engine rather than simply a video editing service.

Example Value Proposition

- Produce high-quality videos at a fraction of traditional production costs.
- Publish content consistently across multiple platforms.
- Launch advertising campaigns faster with AI-powered workflows.
- Create multilingual marketing assets without expensive production teams.
- Increase engagement through platform-optimized short-form videos.
- Scale content production without hiring an in-house creative team.
- Integrate AI-generated content into broader digital marketing campaigns.

Sales representatives should focus on marketing efficiency, content velocity, customer engagement, and business growth rather than discussing AI tools alone.

19. Salary Benchmarks (India)

Role	Typical Monthly Salary
Content Writer	₹30,000–₹70,000
Script Writer	₹35,000–₹80,000
Video Editor	₹35,000–₹90,000
Motion Graphics Designer	₹50,000–₹1,20,000
Graphic Designer	₹35,000–₹80,000
AI Content Specialist	₹50,000–₹1,20,000
Creative Strategist	₹70,000–₹1,80,000
Creative Director	₹1,20,000–₹3,00,000
Account Manager	₹60,000–₹1,20,000

These salary ranges are indicative of India's digital content and creative services industry and may vary depending on experience, location, and specialization.

20. Future Cost Allocation (Internal)

To remain competitive in AI-powered content production, BePrompter should continually invest in creative capabilities, AI technologies, and production workflows.

Recommended investment areas include:

- AI Video Generation Platforms
- AI Avatar Technologies
- Voice Synthesis Models
- Motion Graphics Libraries
- Reusable Video Templates
- Creative Research & Trend Analysis
- Content Production Automation
- Premium Stock Assets
- Employee Training & Certifications
- Software Licenses & Creative Tools
- Sales & Marketing
- Legal & Licensing Compliance
- Customer Success & Creative Support

These investments strengthen BePrompter's creative services over time and are funded through recurring retainers, project margins, and long-term client relationships rather than individual project charges.

Final Recommendation for the Entire Services Catalog

With Service 11 completed, the catalog now covers a comprehensive portfolio of AI, software development, marketing, and creative services. To maximize customer lifetime value, every proposal should follow a cross-selling approach:

- Website Development → Digital Marketing → AI Chatbot → CRM Automation
- E-Commerce → Mobile App → AI Shopping Assistant → Marketing Retainer
- Business Software → AI Workflow Automation → Voice Agent → Analytics Dashboard
- AI Video Generation → Performance Marketing → Lead Qualification AI → Website

Optimization

This positions BePrompter as a full-stack AI and digital transformation partner rather than a provider of individual services, while creating multiple opportunities for recurring revenue and long-term client relationships.
